7. Method and caveats

- **Source:** all figures come from Yahoo Finance, fetched on 18 Oct 2026. For small caps the consensus may be one or two brokers, sometimes stale or in the wrong currency; `data_flag` rows (upside outside −80%/+300%) are left out of the lists.
- **Scoring:** each pillar is the average of percentile ranks across the universe (0–1); score = 25 revisions + 20 upside + 20 quality + 15 growth + 15 valuation vs sector + 5 balance sheet. ROIC uses EBIT × 0.75.
- **Selection:** clean passing names sorted by score with a small bonus for easier Fortuneo access (direct +3, Xetra +2); at most 10 `not online` names.
- **Lead types** and themes are inferred automatically from industry, the Yahoo business description and the numbers; check them.
- **Coverage gaps:** exchanges in Croatia, Slovenia, Bulgaria, Slovakia, Cyprus and Malta are not covered; some German symbols are missing (e.g. K+S).
- **Fortuneo access** follows the official tariff brochure (https://www.fortuneo.fr/files/tarifs_fortuneo.pdf): Paris/Brussels/Amsterdam online; Xetra/Frankfurt at 0.20% (min €20, +€30 foreign fee, €400 minimum order); Milan, Madrid, Nordics, Vienna, Lisbon sale-only by phone.
- **Not investment advice — verify every figure (price, targets, latest results) before acting.**

8. Option B: light web check of the top 15 (18 Oct 2026)

One web search per company, used to check that the Yahoo targets are fresh and to catch recent news. Search snippets can be wrong or undated, so treat this as a first filter, not due diligence.

Verdicts:

- **Confirmed:** fresh sources agree with the Yahoo data.
- **Mixed:** the case holds but there is a caveat.
- **Unverified:** no fresh target was found.
- **Weaker:** the news or data undercuts the lead.

#	Company	What the web check found	Verdict
1	I-Tech	Q2 2026 sales +86% y/y with a 36% operating margin. The Q3 report came out on 16 Oct, but I could not find its numbers. EU approval for Selektope runs until 31 Dec 2026. (MFN, EU approval, ABG)	Mixed: read the Q3 report and check that the EU approval is renewed. Not online at Fortuneo.
2	Friedrich Vorwerk	Targets are widely spread: Berenberg €110 (Buy), Jefferies €65, mwb €60–70 (Hold). One tracker puts the median at €65. The latest notes are from June–August. (Börse Online, onvista, Börse Express)	Mixed: one bullish broker lifts the mean target, and the median implies much less upside.
3	Eolus	In July the Swedish government rejected two offshore wind permits (Västvind, Najaderna). H1 2026 sales were SEK 643m, against SEK 2,338m a year earlier. (Financial Filings, BeQuoted)	Weaker: lumpy project sales, only 2 analysts, already tier C.
4	Heijmans	Consensus target €119.33 from 3 analysts, all Buy. Price €79.15 on 14 Oct, so about +50% upside, in line with Yahoo. ING raised its target to €123 in June. 2026 guidance: about €3.1bn revenue and an EBITDA margin approaching 9.5%. (Trivano, ING note, Heijmans)	**Confirmed**, buyable directly.
5	LNA Santé	H1 revenue +8% (7% organic), and the 2026 organic growth target was raised to +6%. But the free-cash-flow target was cut from €50m to €40–45m and margins were hit at sites being restructured. Dividend raised to €0.95. No broker target found. (Option Finance, ABC Bourse)	Mixed: growth is up but cash flow is down. Targets unverified.

#	Company	What the web check found	Verdict
6	Hexaom	H1 sales +12%, current operating profit +60% (5.7% margin), net cash €71m. The company aims for +20% sales in 2026, helped by the return of the zero-rate home loan (PTZ), but is cautious about geopolitics and the presidential election. No broker target found. (Batiweb, ABC Bourse)	Mixed: strong numbers, but the +118% upside is unverified.
7	Rainbow Tours	East Value Research raised its target to PLN 204.7 (Buy) on 31 Jul, close to Yahoo's PLN 194.7 mean. Risks it flags: the Middle East conflict and jet-fuel costs. (Bankier, Comparic)	Confirmed, but not online at Fortuneo.
8	ASML	Record Q3 on 14 Oct: sales €11.7bn, gross margin 57.5%. Q4 guided at €14.2–15.2bn and full-year 2026 at €44–45bn. Supply for 2027–28 will not fully meet demand, and the company is looking at more capacity. (SEC 6-K, HL)	**Confirmed**: forecasts are likely to rise further. Big cap, direct.
9	OHLA	Investing.com consensus €0.566 (4 analysts, about +32%). TradingView range €0.47–0.59. H1 sales +3.5%, EBITDA +14%. The Flaggers litigation is still pending. (Investing, TradingView, Quartr)	Weaker: other sources imply far less than Yahoo's +88%. Possibly a stale or mis-scaled target (OHLA did a reverse split, so check).
10	Fincantieri	Price about €12.5 on 12 Oct. Consensus €17.7–17.8 (+44–47%), range €16.8 (Intesa) to €20.5 (Jefferies). BofA started coverage at Buy with a €17 target on 1 Oct. 2026 EBITDA guidance raised to €700–710m. (Economia Italia, Websim)	**Confirmed**. German secondary line only, so check liquidity.
11	ACS	No recent target found; the results were from 2025 or undated. (Simply Wall St)	Unverified.
12	ASM International	Deutsche Bank cut its target from €800 to €750 (undated). MarketScreener shows a price near €694 and target raises from Goldman and Berenberg (undated). Yahoo's mean of €1,148 could not be confirmed. (TipRanks, MarketScreener)	Unverified: check the targets before trusting the +53%.
13	Technoprobe	JP Morgan started at Overweight with a €45 target on 6 Oct, and Equita raised to €44 on 8 Oct. **The share jumped from €25.84 to about €34–37 on 6–8 Oct**, so the real upside is about +20–30%, not the +61% in the data. (Soldionline, Borsa Italiana)	Confirmed momentum, but **less upside**: it still clears the 15% large-cap bar.
14	SUSS MicroTec	The latest notes are from August, when the share was about €79: Jefferies €109 (Buy), Warburg €93 (Hold), Deutsche Bank €94 (Hold, May). The share is now €56, so these targets were set before the fall. (finanzen.net, Warburg)	Mixed: the +96% likely overstates it until brokers update after Q3.
15	Zeal Network	Buy confirmed with a €70 target in mid-October at a price of €39.80. Montega €70, another house €80, and an aggregator average of €73.4 (12 of 13 Buy). H1 revenue +20%. Q3 results on 4 Nov. (Goldesel, aktien.guide, t-online)	**Confirmed**, Xetra.

Net result for the top 15 (see section 10 for all 60):

- **Best-supported leads after the check, all buyable at Fortuneo:**
  - Heijmans (direct);
  - ASML (direct);
  - Zeal Network (Xetra);
  - Fincantieri (German secondary line).
- **Confirmed but not buyable online:** Rainbow Tours.
- **Upside overstated by the data:** Technoprobe (the price has already moved), SUSS MicroTec (the targets predate the fall) and Friedrich Vorwerk (the median target is much lower than the mean).
- **Weaker:** Eolus, OHLA.
- **Still unverified:** ACS, ASM International, Hexaom, LNA Santé.

18	ASTA Energy	2026 adjusted EBITDA guidance **raised** to €60–64m (from €55–59m); H1 sales +22%, EBITDA +54%. Baader €65 (Add), Berenberg €90 (Buy). (Kapitalmarktexperten, Goldesel)	**Confirmed**, Xetra.

28	AMG	Citi Buy €52 (24 Aug); Degroof upgraded to Buy (€40, July); Deutsche Bank Buy €42; ING €45. (Trivano, Degroof)	**Confirmed**, direct.
29	AT&S	Börse Express median target €215.5 (16 Oct), range €100–380, 4 analysts. A profit warning (undated) clashes with a later reaffirmed outlook. (Börse Express, AT&S)	Mixed: on the €215 median the upside is about +24%, not +63%.
30	Wavestone	**Guidance cut in July** (organic growth −1% to low single digit, margin 11–13%); shares −29%. Portzamparc cut to Hold. The only explicit target (Oddo €64) predates the cut. (ABC Bourse, Fortuneo)	**Weaker**: targets likely stale.

37	Industrie De Nora	Mostly Hold/Neutral: Equita €7.2 (July), Akros €8.5, Kepler €8.4, Mediobanca €8.3. (Borsa Italiana)	Mixed: about €8 consensus at Hold; limited growth visibility. Not online.
38	Napatech	Q2 revenue +55%, but EBITDA still negative; units guidance **cut**. No target found. (Inderes)	Weaker.
39	Basler	Berenberg €29 (Buy), Warburg €31 (Buy), Jefferies €27 (Buy); H1 sales +36%, guidance raised again. Risk: Sony sensor plant outage. (Goldesel, finanzen.net)	**Confirmed**, Xetra (supply-chain niche: machine vision).
